Climate Change

- Increase in average global temperatures. Natural events and human activities are believed to be contributing to an increase in average global temperatures. This is caused primarily by increases in “greenhouse” gases such as Carbon Dioxide (CO₂).

Global Warming

Desert

- A landscape or region of land that is very dry because of low rainfall amounts (precipitation), often has little coverage by plants, and in which streams dry up unless they are supplied by water from outside areas.
- These are lands that are affected too much from the sun's radiation.

Desert/Unfertile land

Problems

- Unproductive land
- Unutilized land
- Hot place
- Low rainfall
- Frequent sandstorms
- Unattractive place
- Food dependence
- Susceptible to global manipulation

Solution

STORM'S RESEARCH

Solution

- **Special** formulation to condition the soil and restore soil nutrients for agricultural productivity.
- Convert unproductive or desert to **FERTILE** lands.
- **Short-term** conversion (3-8 months)
- **Not expensive.**
- **Low maintenance.**
- **PERMANENT** solution

Solution

AGRiKA TM

Sustainable Agriculture

Solution

- Is a packaged service (soil analysis, materials + technique in application)
- All materials are coming from the Philippines.
- All materials are Organic, non-toxic and environment-friendly.
- Duration of application is just less than 2 hours per hectare.

Why Now? FUELED - Country

- ✓ **F**ood security
- ✓ **U**tilization of natural resources
- ✓ **E**nvironmental responsibility
- ✓ **L**ivelihood creation
- ✓ **E**conomic Local Development
- ✓ **D**iversification activities
- ✓ Better **C**limate

Food Security

- Reduce importation, create **INDEPENDENCE**.
- Effect **CHEAPER** food prices.
- Replace scarcity with **ABUNDANCE** of food.
- Access to **FRESH** agricultural products.
- Eliminate food **MANIPULATION**.

Utilization

- No other time to **START** but **NOW**.
- **LARGE PERCENTAGE** of unutilized lands.
- Develop land suitable for **AGRICULTURE**.
- **COMPETE** with the world on agricultural economy.

Environmental Responsibility

- **MODEL** Nation.
- **BALANCED** economy.
- **GIVE BACK** the favor.
- **INTER-GENERATIONAL EQUITY** –
cleaner environment for the
younger generations.

Livelihood Creation

- Make citizens **PRODUCTIVE**.
- **OPPORTUNITIES** for enterprising citizens.
- Decrease government **SUPPORT**.
- Eliminate **UNEMPLOYMENT** and **POVERTY**.

Economic Local Development

- Stir local **SUPPLY & DEMAND**.
- More spending provides **STIMULUS** to local economy.
- Contribute to more **GDP**.
- **EXPORT** agricultural (organic) products to Europe, Africa of any part of the world.

Diversification

- Develop **NEW INVESTMENT STRATEGIES**.
- Provide **MORE PRODUCTS & SERVICES** – timber, chemicals, pharmaceuticals, fabrics, animal feeds, human food and ornaments.
- **ECO-TOURISM** sites – forests, parks and resorts.

Better Climate

- Lower atmospheric temperature – **COOLER** place.
- Eliminate **DUST or SANDSTORMS**.
- Plants absorb air **POLLUTANTS**.
- More plants create underground **WATER TABLES**.
- **BIO-DIVERSITY** (more species of flora and fauna)

STORM Corporation

- French -registered stock corporation with European Technology.
- Engaged in research, development, production and global marketing of its products.

STORM'S RESEARCH

Suggested Client Programmes

- Corporate Environmental Responsibility Agri Land – every corporation is required at least 1 hectare to maintain and develop an agricultural land.
- Citizen Livelihood Agri Land – each unemployed citizen/family are given land to till.
- Domestic Investor Agri Land – existing registered corporations

Our Marketing Programmes

- Exclusive Country **Channel Partner**
- **Reseller/Commission Agent**
- **Joint-venture Agreement**
- **Share of Production Scheme**

These programmes are very **flexible** and subject to agreement of the parties for **MUTUAL COOPERATION.**

Allied Services

- ✓ Application of SustAgri
- ✓ Farming Maintenance of Plantation
- ✓ Facilitation of water and/or electricity supply
- ✓ Civil works on technique to convert Air to Water.
- ✓ Installation of Solar Pumps.
- ✓ Installation of Water Irrigation Drips

Ideas Needed.....

Please let us know **what you have in mind** and we can surely make a **workable plan** on how to proceed with this commendable endeavor.

STORM'S RESEARCH

Thank you.
